

Two devices. One tough choice.

Choosing the right rugged mobile computer for your business can be difficult. Especially when deciding between two proven Zebra devices. Here's what separates the TC57 and TC77 from the competition, and each other.

ZEBRA

TC57

Rugged & Reliable

• TOUGH

- All-day, everyday use
- Fast charge, warm swap battery with 14-hour run-time

The Right Choice for:

-  *Transportation*
-  *Field Mobility*

Similarities.

And Difference Makers.

- 4G LTE/Dual SIM standby boosts productivity anywhere
- WorryFree Wi-Fi
- Intuitive interface
- Engines are more advanced at reading all barcodes—from Digimarc Barcodes to 2D mobile coupons
- Loaded with Mobility DNA apps and enhancements
- Works dry or wet
- New, powerful 64-bit octa-core chipset
- Simplified application development and device management
- Extensive backward compatible accessory ecosystem
- Long Android support roadmap with OS+ 2 Android P&Q compatibility

ZEBRA

TC77

Ultra-Rugged & Relentless

• TOUGHER

- Constant wear and tear
- Fast charge, warm swap battery with 15-hour run-time

The Right Choice for:

-  *Transportation*
-  *Field Mobility*
